CEL 100A: ENVIRONMENTAL SCIENCE & ENGINEERING

BABU ALAPPAT
alappat@iitd.ac.in

CVL 100A Lectures

- Course Structure: 2 - 0 – 0
- Lectures on Tuesdays, Wednesdays (and Fridays when required): 8am to 8.50am
- Do not miss any lecture
- Course materials shall be uploaded on Moodle

Some practical tips…..

- Attend all the lectures
- Download all the PPTs and other materials
- Read all my mails to the end
- Follow the instructions and directions
- Do not miss the exams
- PPTs + Lecture will be sufficient for you
- PPTs alone may not be sufficient
- Email me (alappat@iitd.ac.in) only if it is really required

Environmental Science and Engineering

- Interdisciplinary in nature
- Good blend of Science & Engineering
- Most Promising and Emerging area of Civil / Chemical Engineering
- Many challenges and Real Life Problems
- It brings the nations together

Environmental Science and Engineering

- Macro issues

International / Global issues, Issues related to Space and Universe

- Micro issues

Local issues

Macro – Environmental Issues

- Ozone Layer Depletion
- Global Warming
- Pollution of the Oceans
- Depletion of Fossil Fuels
- Nuclear – Chemical – Biological Weapons
- Pollution of the Space and from the Space
- Acid Rain
- Biological accidents - Pandemic

Micro – Environmental Issues

- River Pollution
- Eutrophication
- Automobile Pollution
- Management of Industrial Wastes
- Management of Domestic Wastes
- Noise Pollution
- Biodiversity
- Photochemical smog
- Deforestation
